How to Measure

Bust

Measure under your arms, around the fullest part of the breast.

Waist

Measure around your natural waistline, being the smallest part.

Low Waist

Measure approximately 2" below the natural waistline or two fingers below the navel. This measurement applies to all items which sit below the navel.

Hip

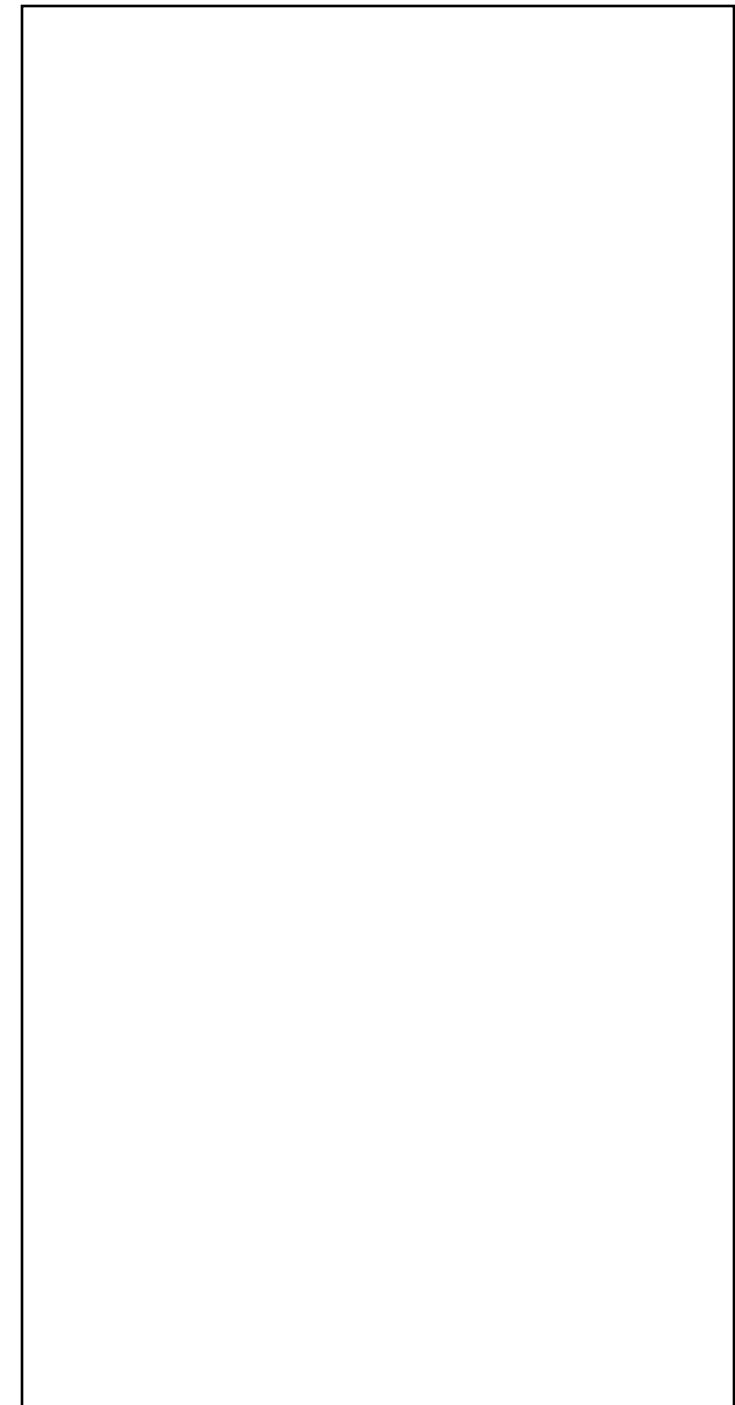

Measure around the fullest part of your hip.

Leather Care

- Store your leather garment in a well-ventilated area out of the garment bag
- Allow a wet or damp garment to air dry away from any heat source
- Remove small stains as soon as possible with a cleaner like saddle soap
- Polish with a good quality leather polish
- Use professional dry cleaners for more serious stains

Vinyl Care

- It is recommended that vinyl garments be stored in a garment bag away from other clothing
- Hand wash in warm water with a small amount of liquid detergent
- Wash both the inside and outside of the garment, rinse thoroughly in cool water
- Hang to dry inside out then turn to let vinyl side dry
- Polishing can be done with small amounts of silicone spray
- Different colors of vinyl should be washed and stored separately as dark colors can bleed onto lighter ones.
